Declaration of Invention Ownership and Intent

Date: August 1, 2025

To Whom It May Concern:

This Declaration of Invention Ownership and Intent is issued by Vleyr Technologies Inc., a corporation organized and existing under the laws of the United States, to affirm ownership and intellectual property rights over the inventions known as the VLEYR Trust Attestation Network (VTAN) and the Decentralized Physical Task Protocol (DPTP), collectively referred to as the "Inventions."

1. Ownership and Inventorship

Vleyr Technologies Inc. hereby declares that it is the sole owner of all rights, title, and interest in the Inventions. The Inventions were conceived and developed by Terrell Robert Annunziata, the Founder and CEO of Vleyr Technologies Inc., under conditions that assign all intellectual property rights to Vleyr Technologies Inc. The Inventions are original works, not derived from or infringing upon any third-party intellectual property.

2. Description of the Inventions

The Inventions consist of two complementary decentralized digital protocols designed to coordinate and verify real-world actions in a privacy-preserving and tamper-resistant manner, with applications across multiple industries, including but not limited to logistics, compliance, decentralized identity, financial technology, and distributed ledger technology integration.

- **VLEYR Trust Attestation Network (VTAN): A distributed cryptographic system that collects, processes, and verifies data from real-world events, generating privacy-preserving proofs committed to a tamper-proof ledger. It employs cryptographic techniques to ensure data integrity and confidentiality while enabling interoperable attestations across sectors.**
- **Decentralized Physical Task Protocol (DPTP): A decentralized protocol for coordinating and verifying the execution of physical tasks by human operators, utilizing mobile interfaces and cryptographic verification to produce auditable, secure attestations of task completion.**

The Inventions integrate mobile technology, cryptographic proofs, and distributed ledger systems to address challenges in trust, privacy, and scalability, bridging physical and digital domains.

3. Intellectual Property Protection

Vleyr Technologies Inc. has filed a provisional patent application with the United States Patent and Trademark Office (USPTO) under 35 U.S.C. 111(b) on July 18, 2025, covering the Inventions. This filing establishes a priority date and serves as notice of Vleyr Technologies Inc.'s intent to pursue non-provisional patent protection within the statutory period of 12 months. The Inventions are further protected by trade secrets, copyrights, and pending trademark rights associated with the VLEYR brand and related marks.

4. Notice to Third Parties

This Declaration serves as public notice that any unauthorized use, reproduction, modification, or commercialization of the Inventions, or any system substantially similar to VTAN or DPTP, constitutes infringement of Vleyr Technologies Inc.'s intellectual property rights. Such actions may result in legal action to enforce Vleyr Technologies Inc.'s rights, including but not limited to seeking injunctive relief, damages, and attorney's fees.

Third parties developing or deploying technologies that coordinate real-world tasks through decentralized protocols, utilize privacy-preserving cryptographic proofs, or commit attestations to distributed ledgers are advised to conduct thorough patent clearance searches. Systems that replicate the functionality of VTAN or DPTP, particularly those involving human-operator task verification or tamper-proof attestation networks, may infringe upon Vleyr Technologies Inc.'s intellectual property.

5. Intent to Enforce

Vleyr Technologies Inc. is committed to vigorously protecting its intellectual property. The company actively monitors the market for potential infringements and will pursue all available legal remedies against entities that copy, adapt, or otherwise exploit the Inventions without authorization.

6. Contact Information

For inquiries regarding licensing, collaboration, or intellectual property matters related to the Inventions, please contact Vleyr Technologies Inc. at:

Email: vleyretechnic@gmail.com
Phone: 929-487-7557

7. Governing Law

This Declaration is governed by the laws of the United States, including federal patent law and the laws of the State of New York, without regard to conflict of law principles.

Signed:

Terrell Robert Annunziata
Founder and CEO
Vleyr Technologies Inc.
August 1, 2025

Note: This Declaration is intended for public disclosure to establish notice of Vleyr Technologies Inc.'s intellectual property rights. It complies with U.S. patent law requirements for public notice and does not disclose proprietary technical details of the Inventions.
